Actions Songs and Rhymes

The Crocodile

If you should meet a crocodile,
don't take a stick and poke him!

Ignore the welcome in his eyes.
Be careful not to stroke him!

For as he sleeps upon the Nile,
he thinner gets and thinner.

For where'er you
meet a crocodile.

HE'S READY FOR HIS DINNER!

See what actions you
can make
up to go with these
rhymes!

Little Bunnies

See the little bunnies
sleeping 'til it's
nearly noon Shall we wake
them with a merry tune?
Oh so still, are they ill?
Wake up bunnies!

Hop little bunnies, hop, hop, hop
Hop little bunnies, hop, hop, hop
Hop little bunnies, hop, hop, hop
Hop little bunnies, hop and stop!
And again!

Caterpillar

Caterpillar caterpillar,
munch munch munch
Munching on a crunchy leaf, crunch crunch crunch
Caterpillar, caterpillar,
where have you gone so soon?
Snuggled up all safe and warm
inside your soft cocoon.
Caterpillar caterpillar, way up high.
Open up and see inside a beautiful butterfly.

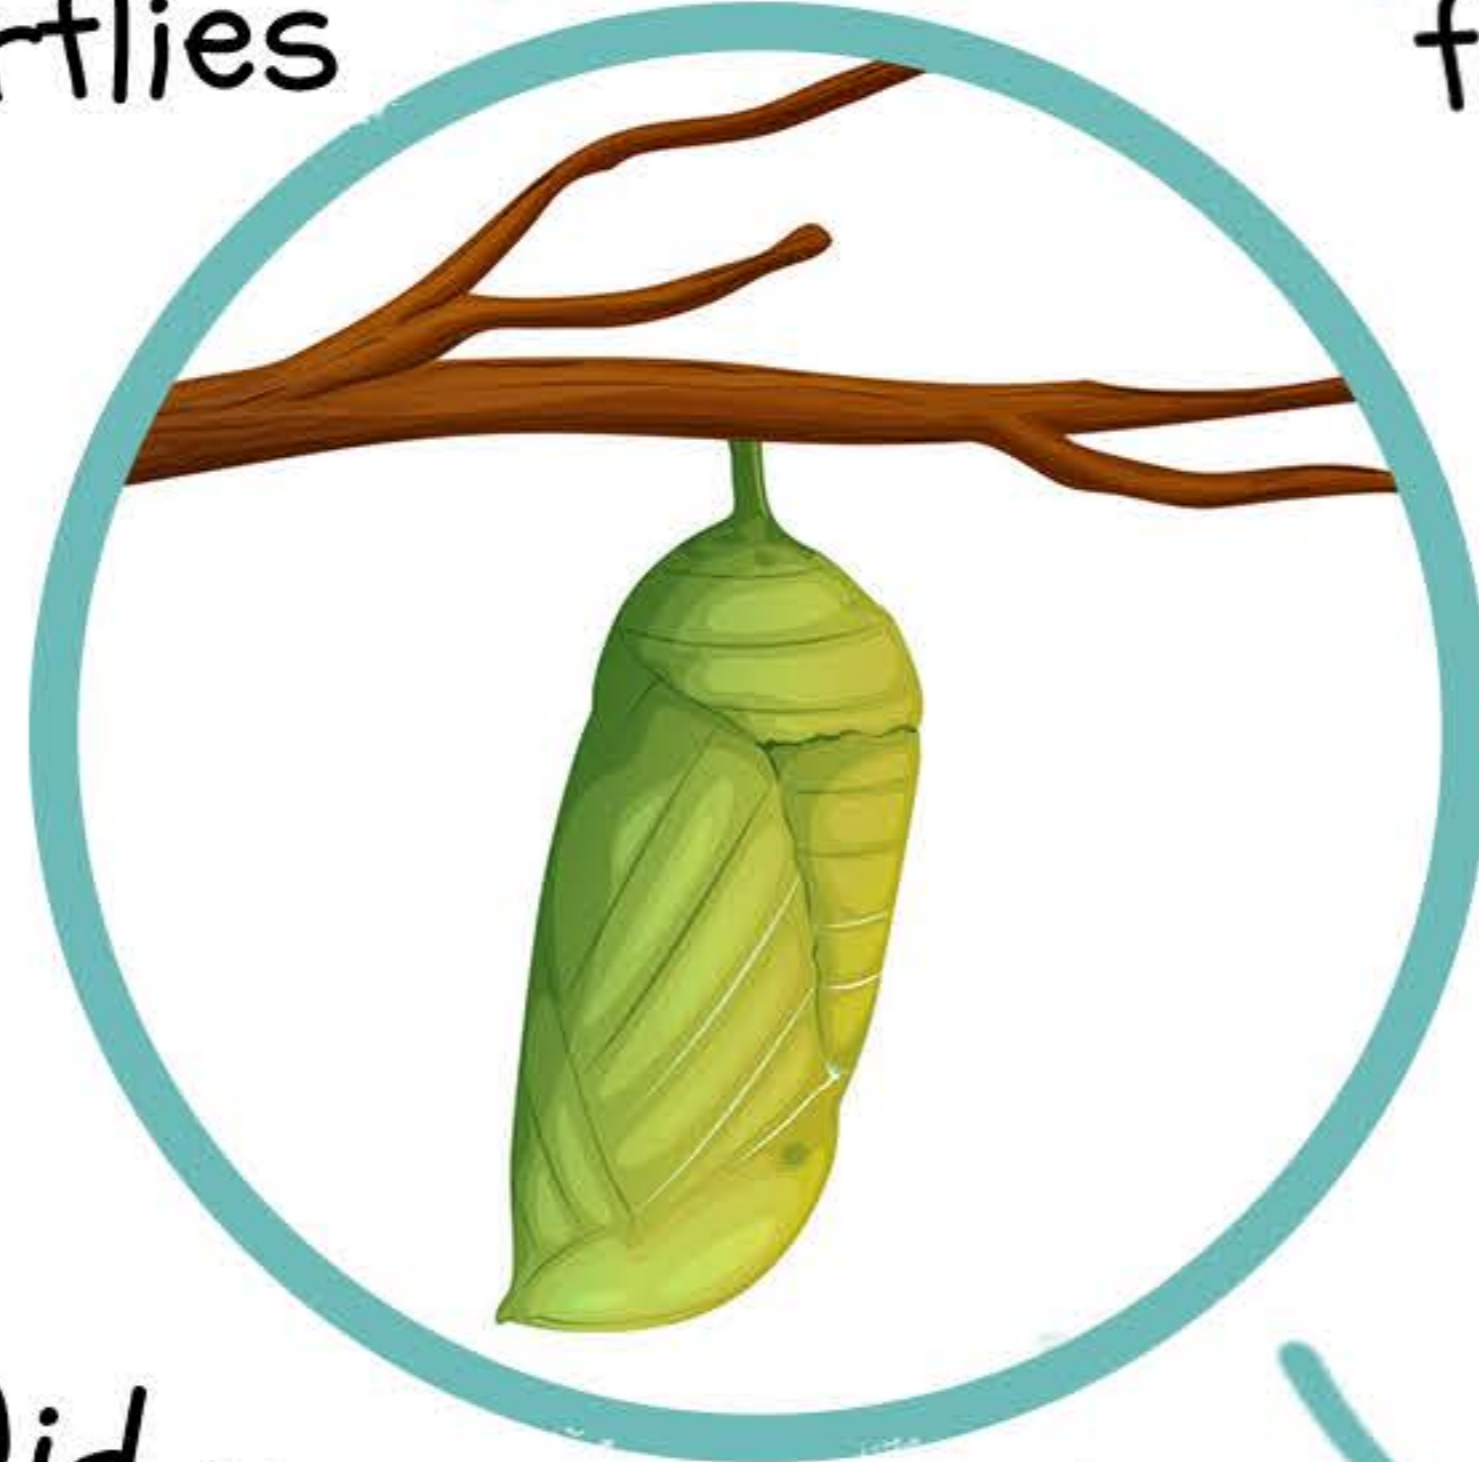

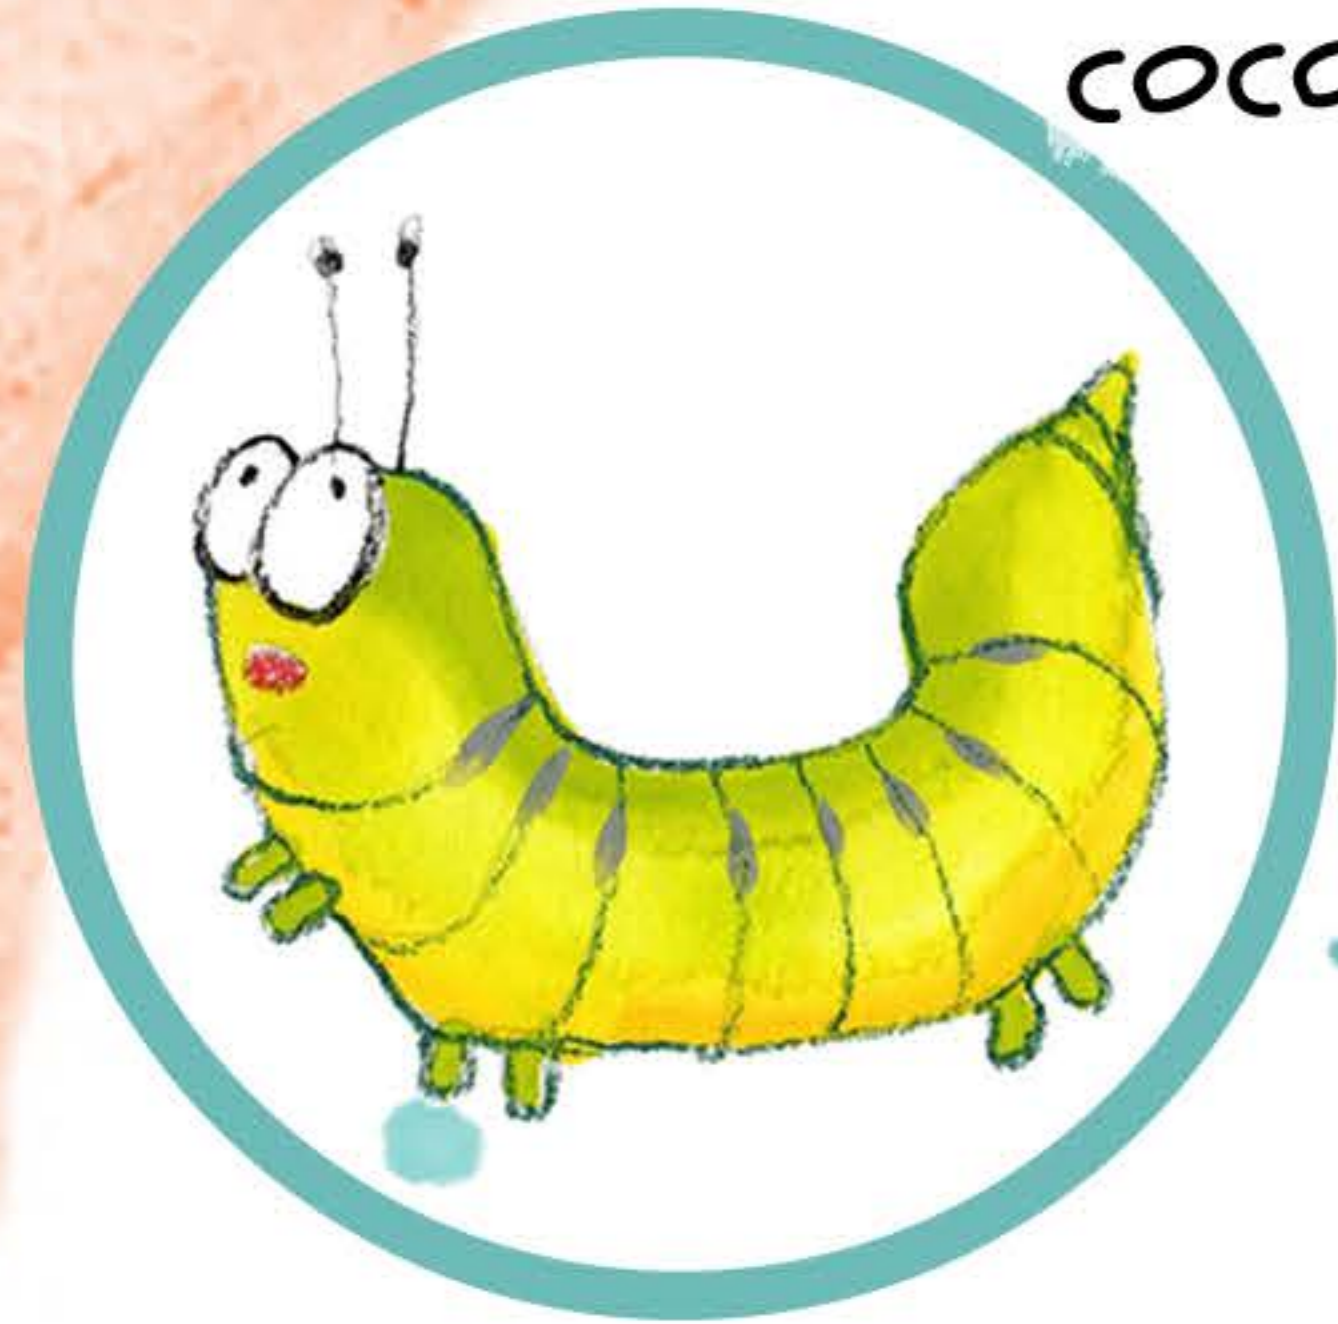

Featherbed Tales Activity sheet

Caterpillars and Butterflies

After eating lots and lots of leaves, caterpillars turn into cocoons then into butterflies

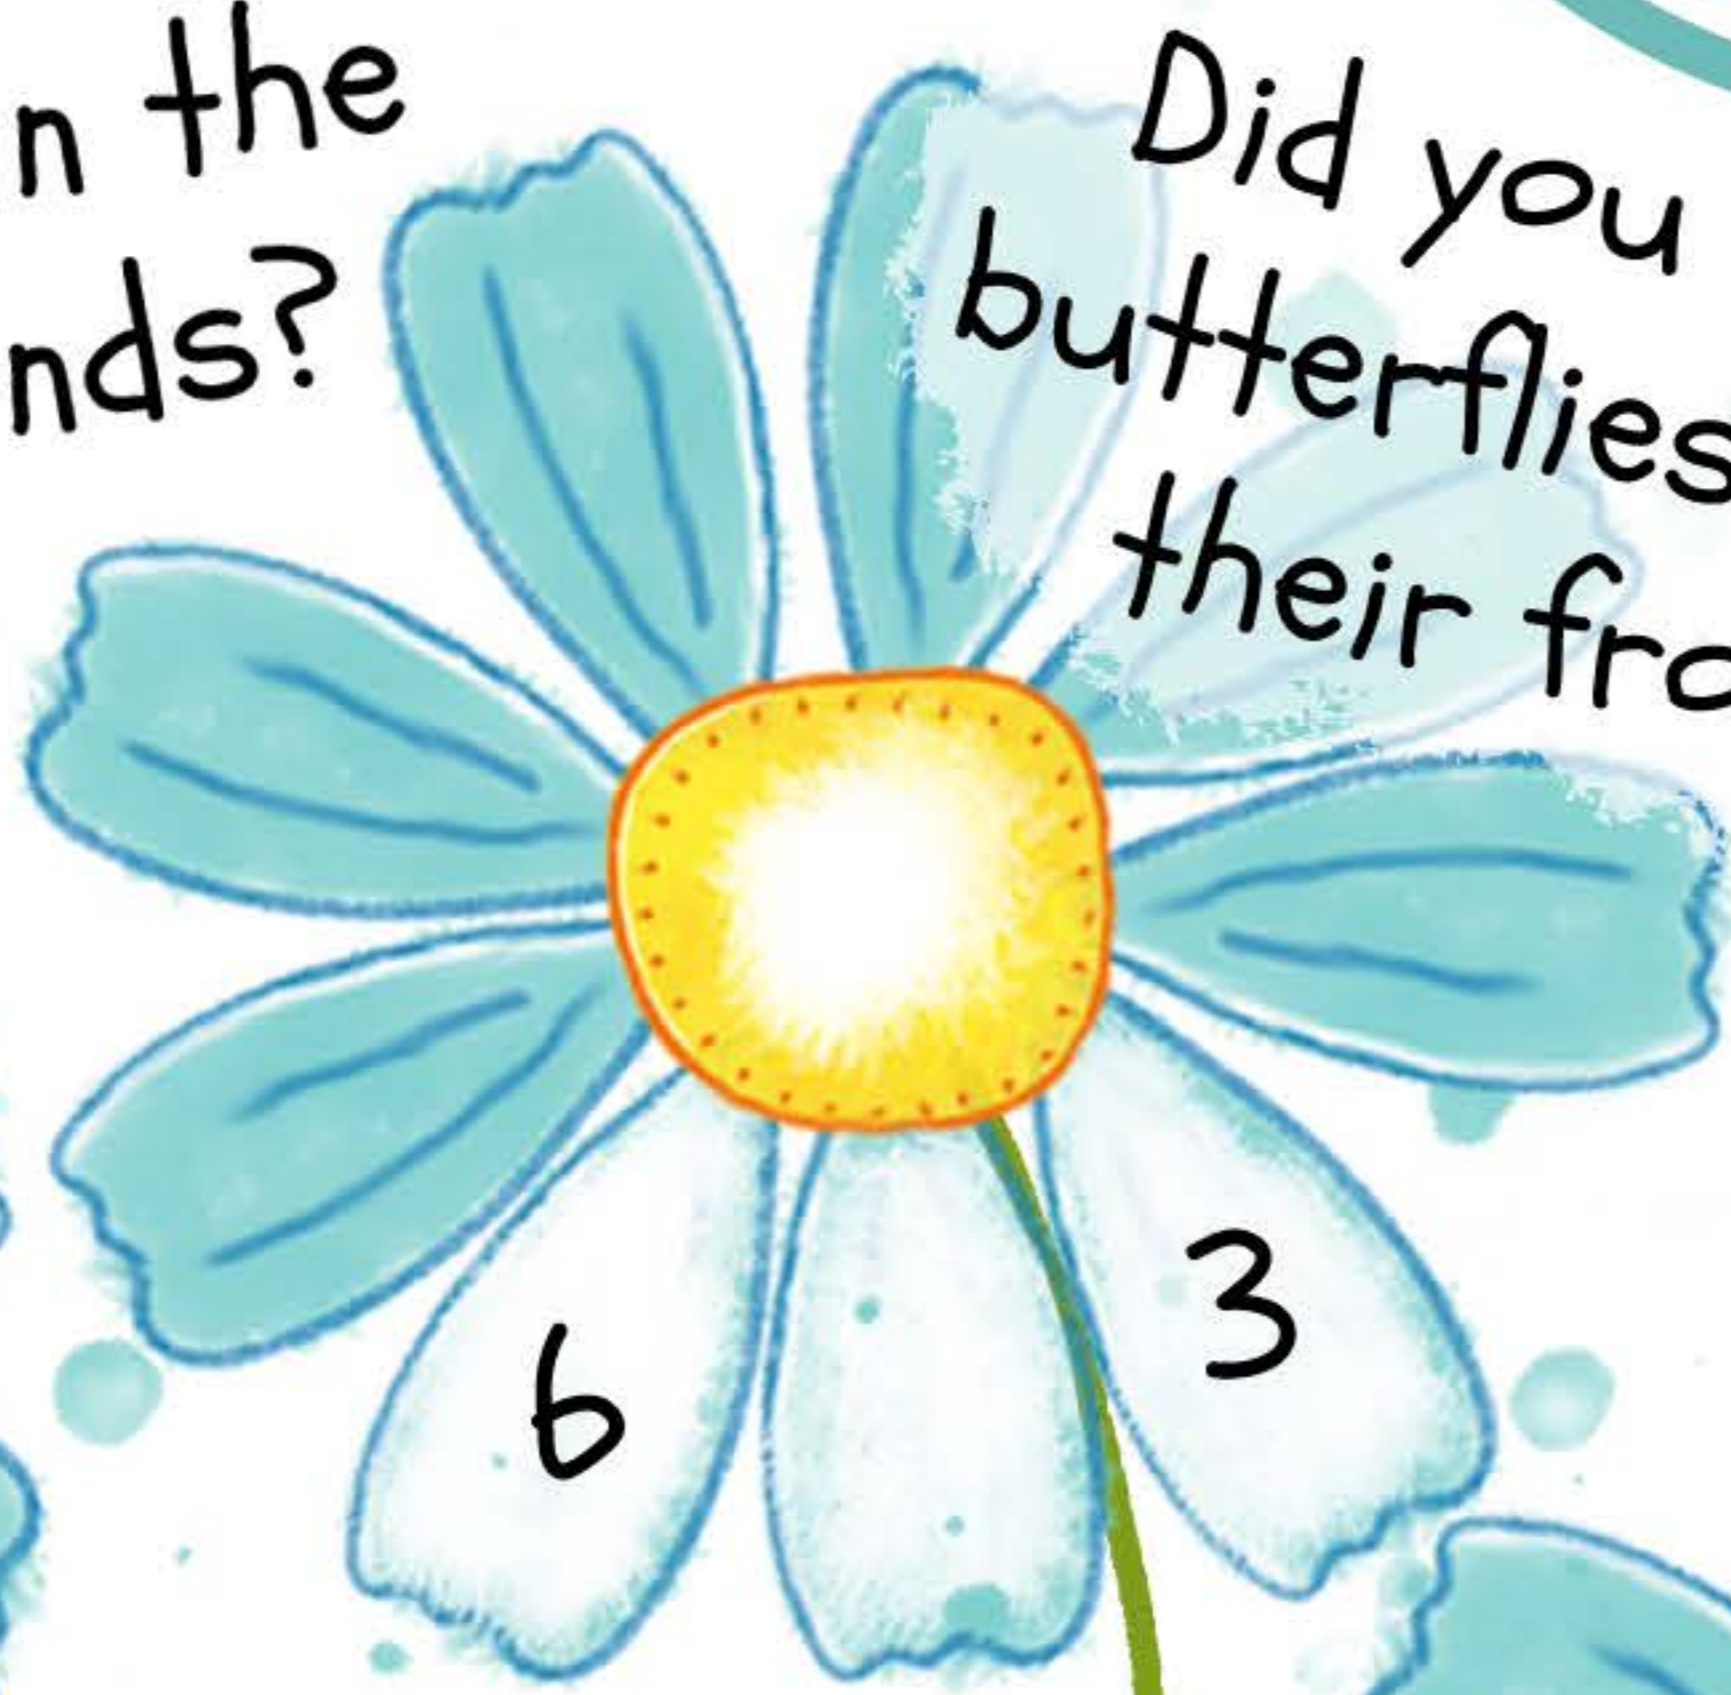

Butterflies collect nectar from flowers with their long proboscis.

Can you draw a butterfly with a long curly proboscis?

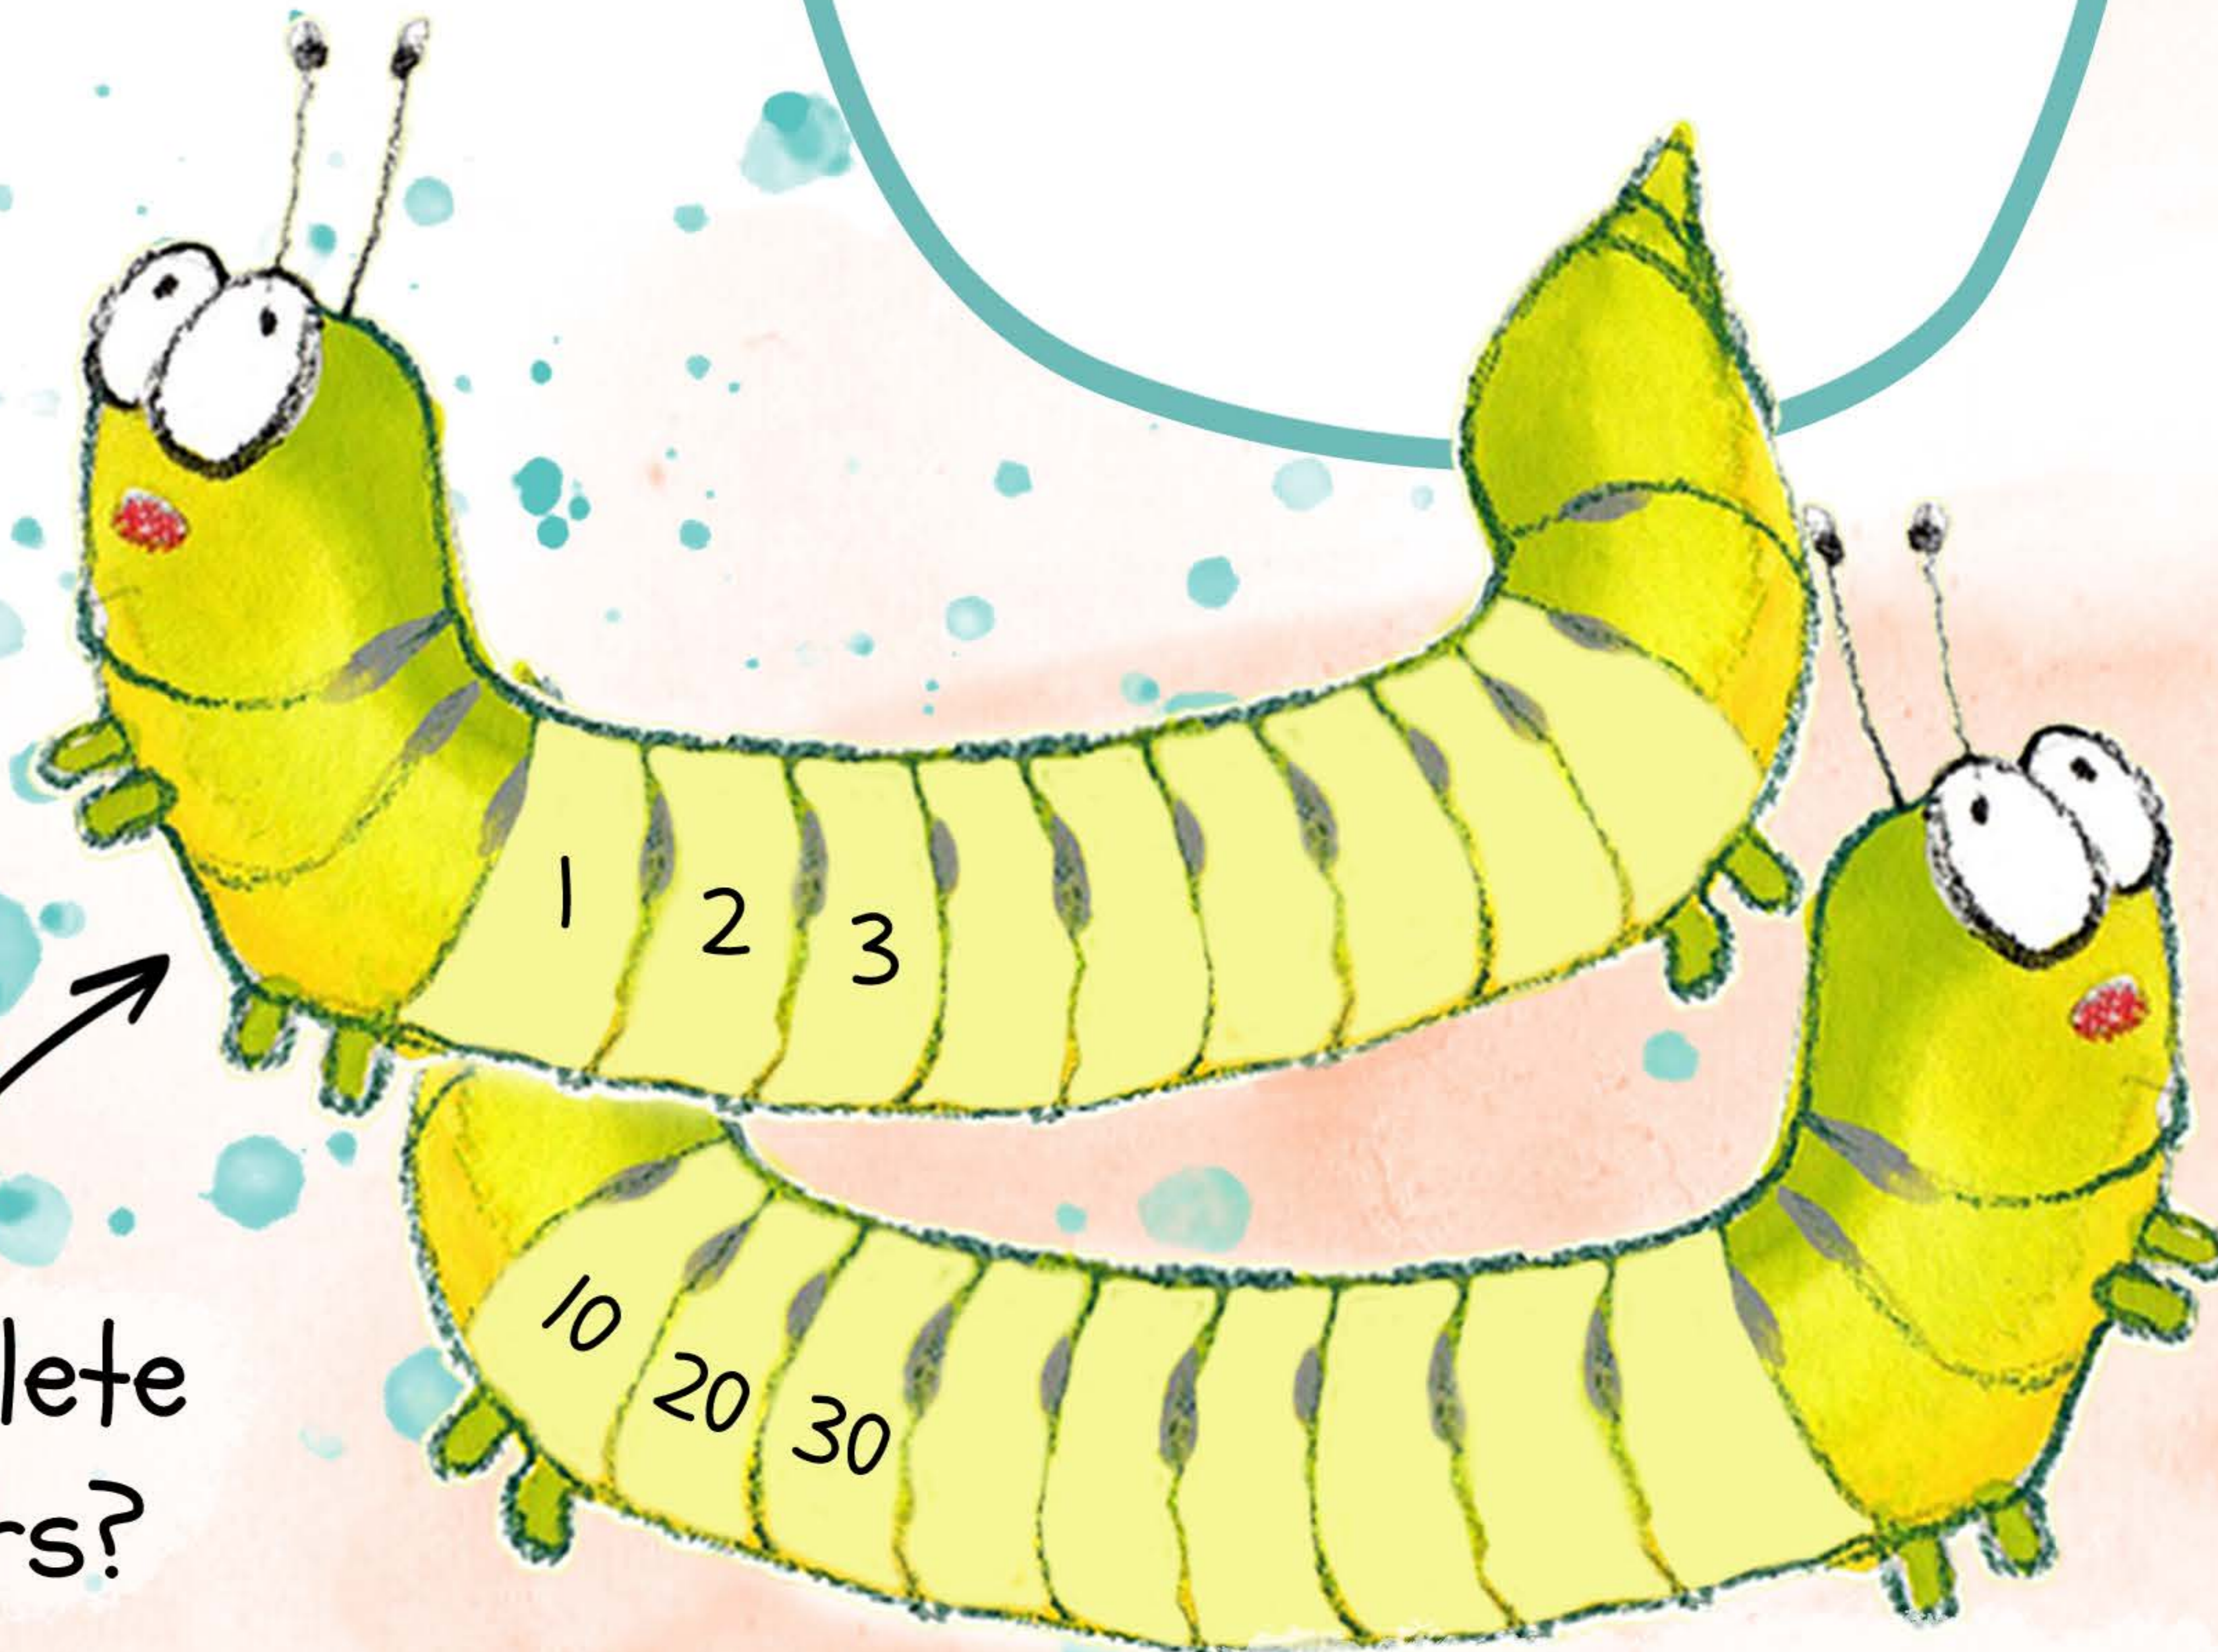

Can you fill in the number bonds?

Did you know that butterflies taste with their front feet?

Can you complete the Caterpillars?

Featherbed Tales Activity sheet

Camels

Camels can have one hump or two.

This is a Bactrian camel with 2 humps.

Here are some colourful patterned suns. Can you create your own patterns in the sky?

Like the letter B on its side!

A camel with one hump is called a dromedary. Like a D on its side.

Oh no! This camel has lost his humps! Can you draw them back on again?

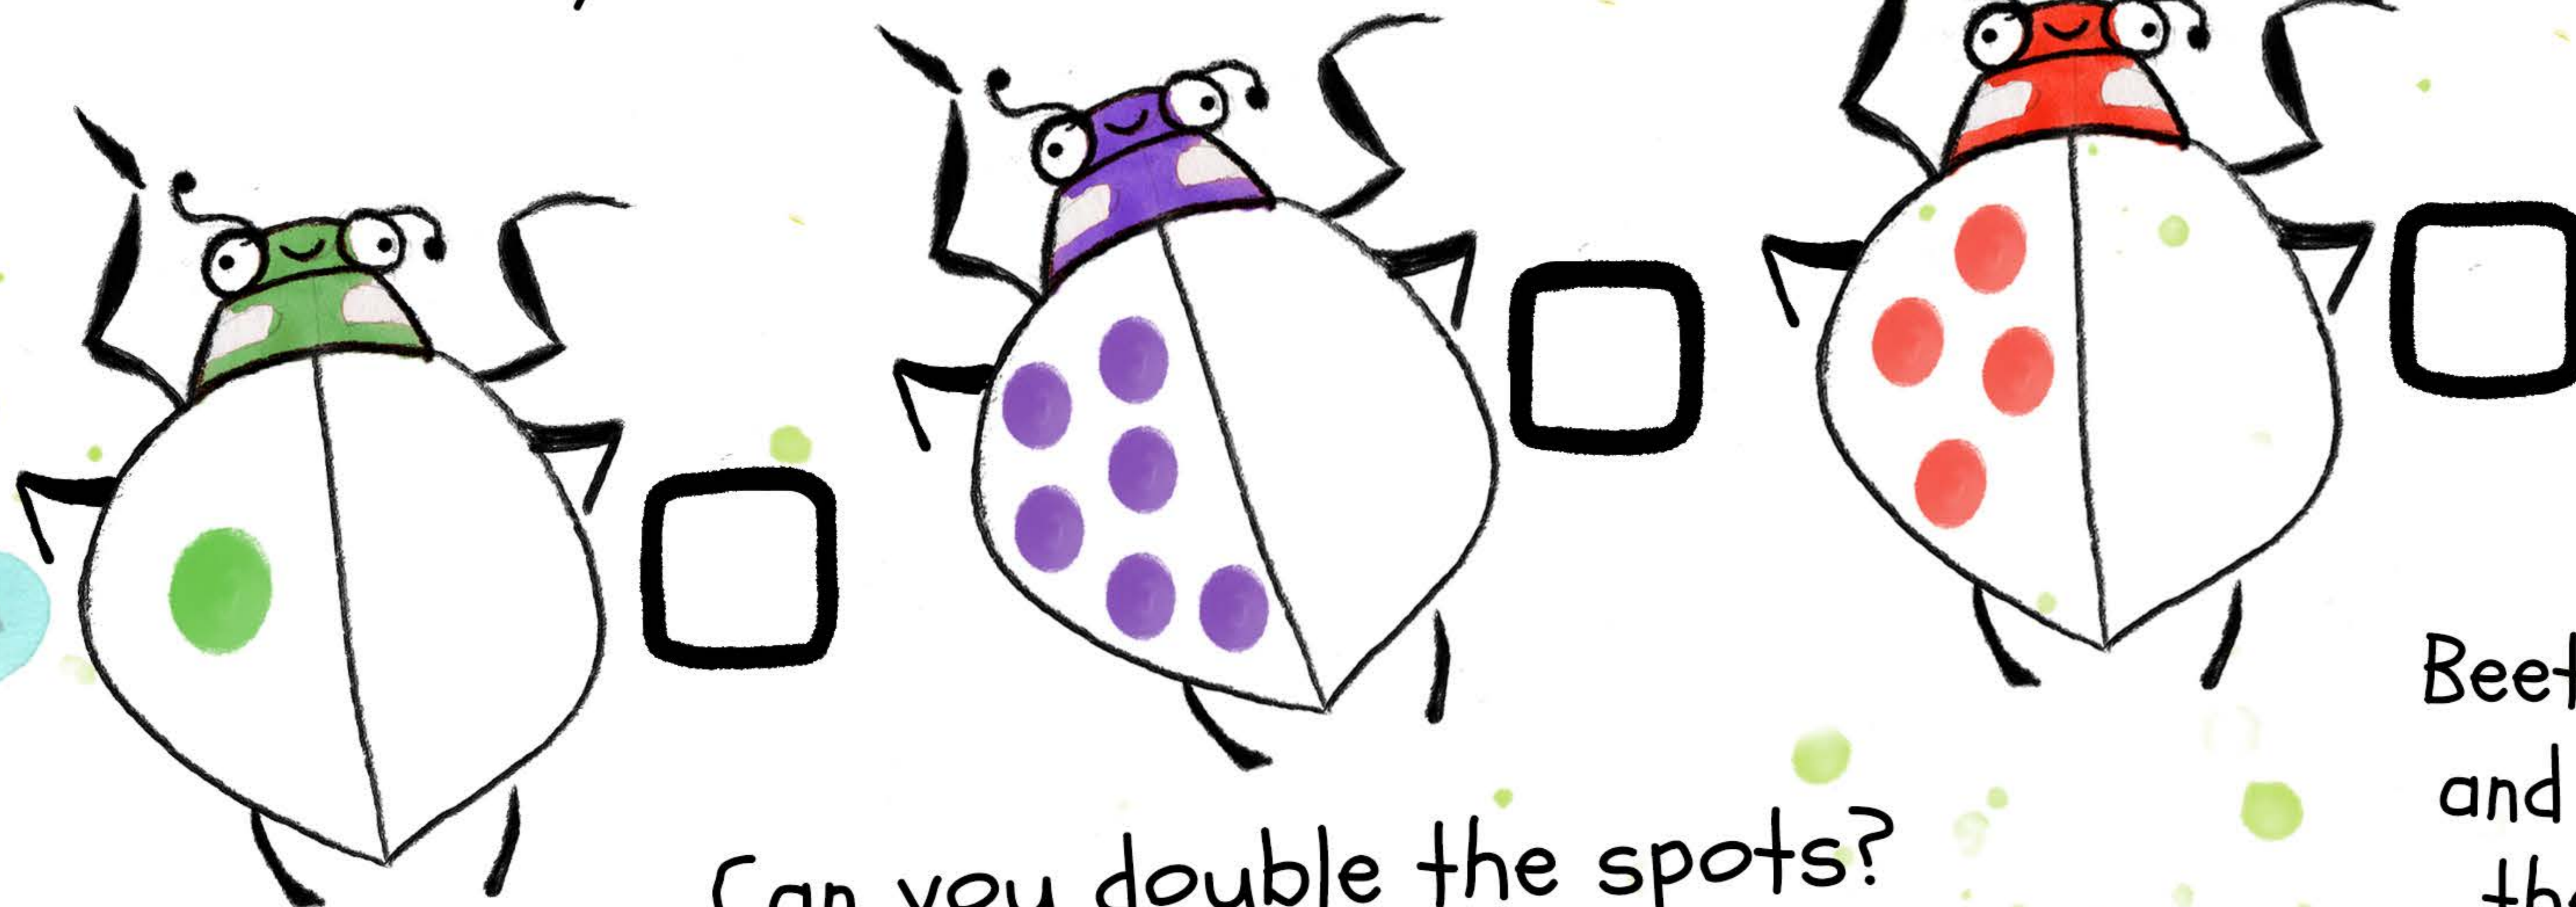

Can you draw one hump on this camel?

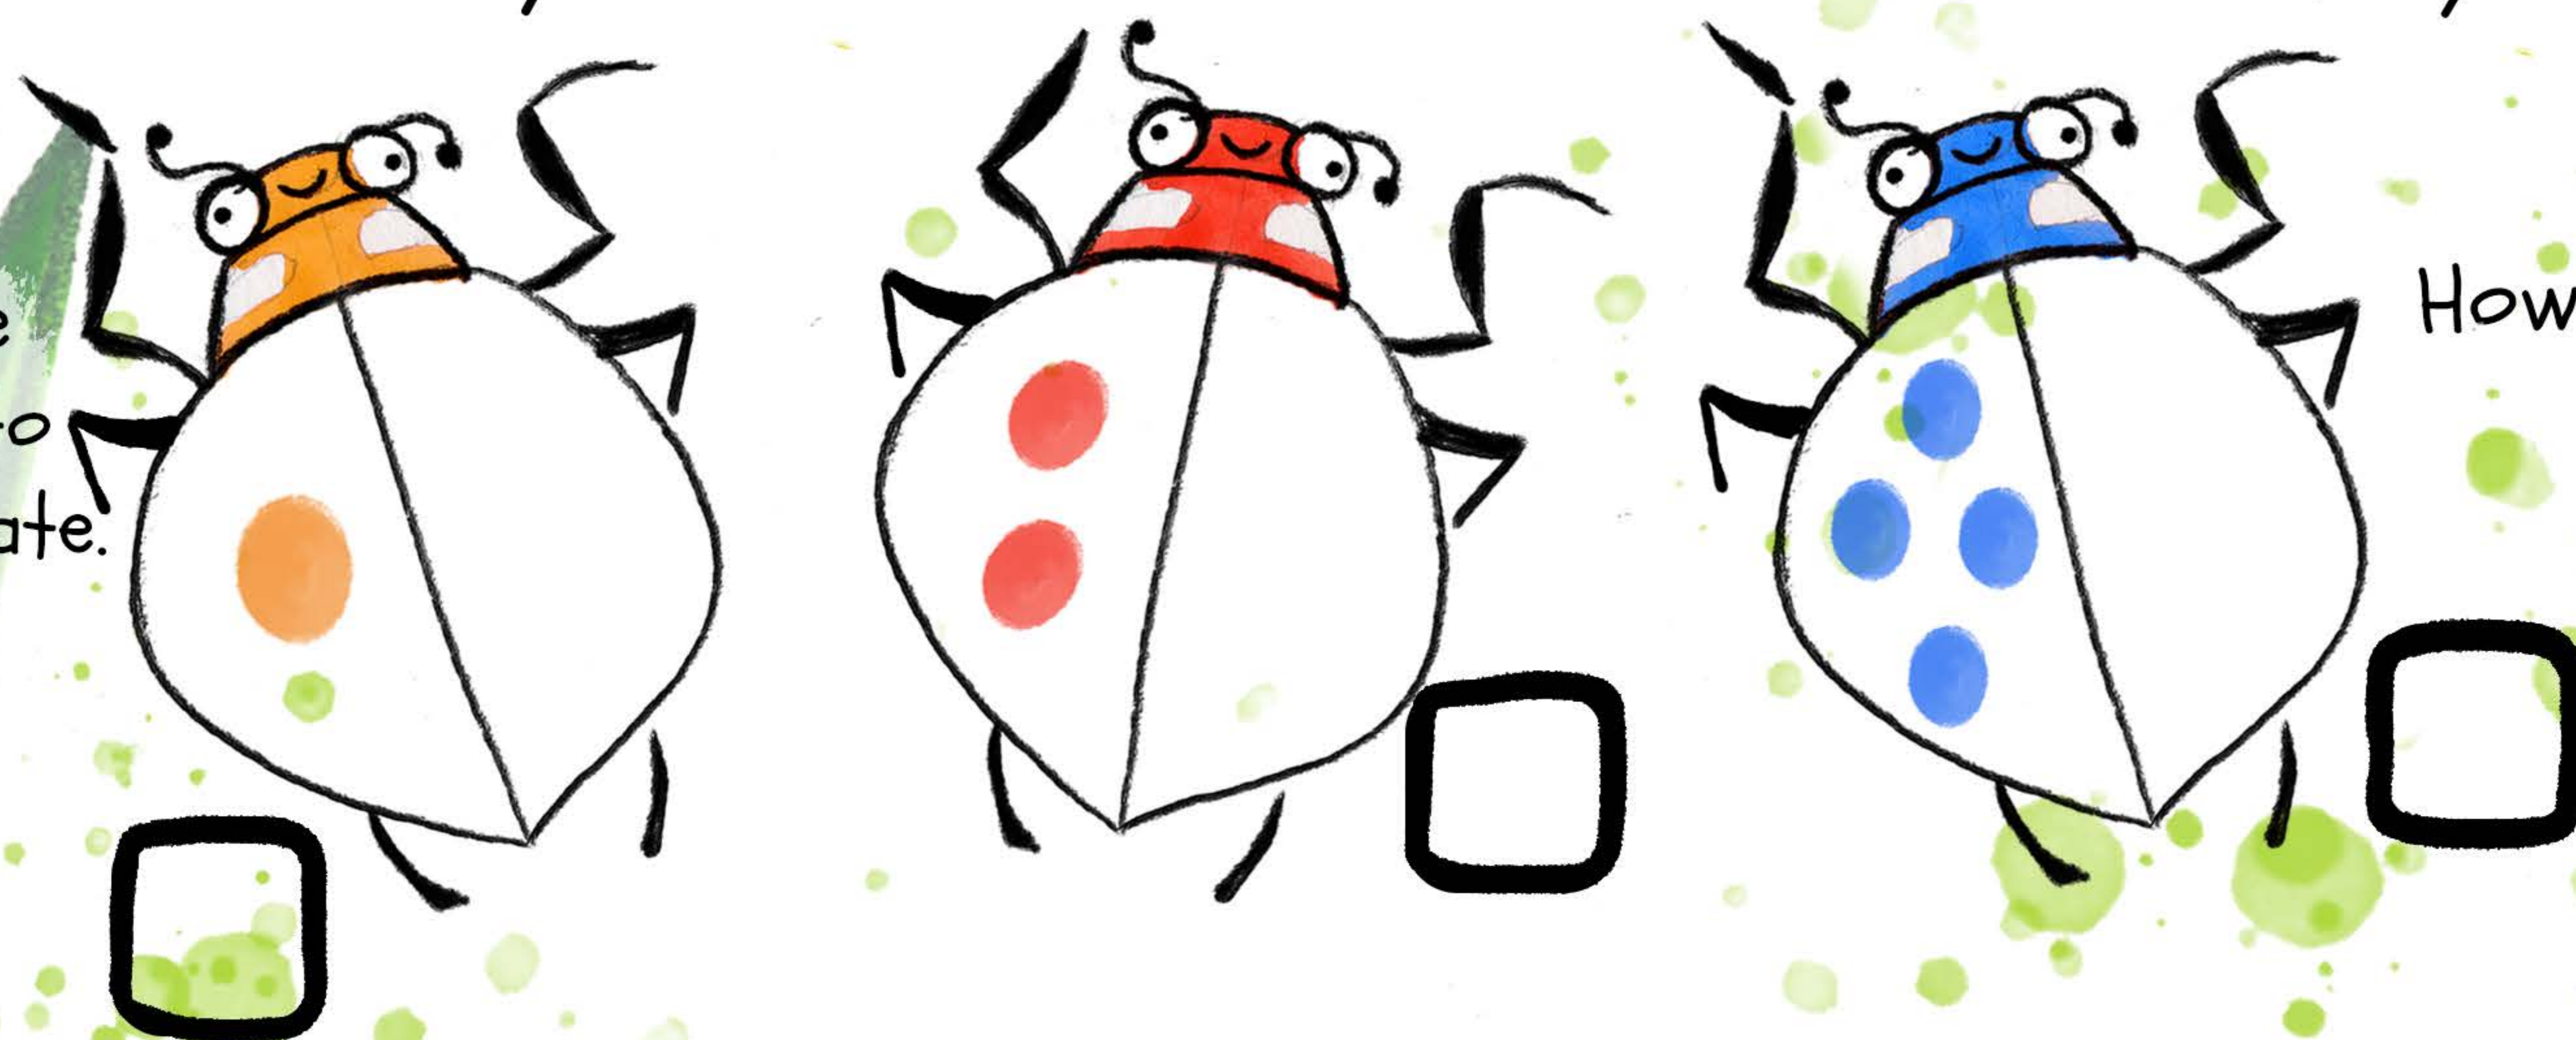

Featherbed Tales Activity sheet

Insects

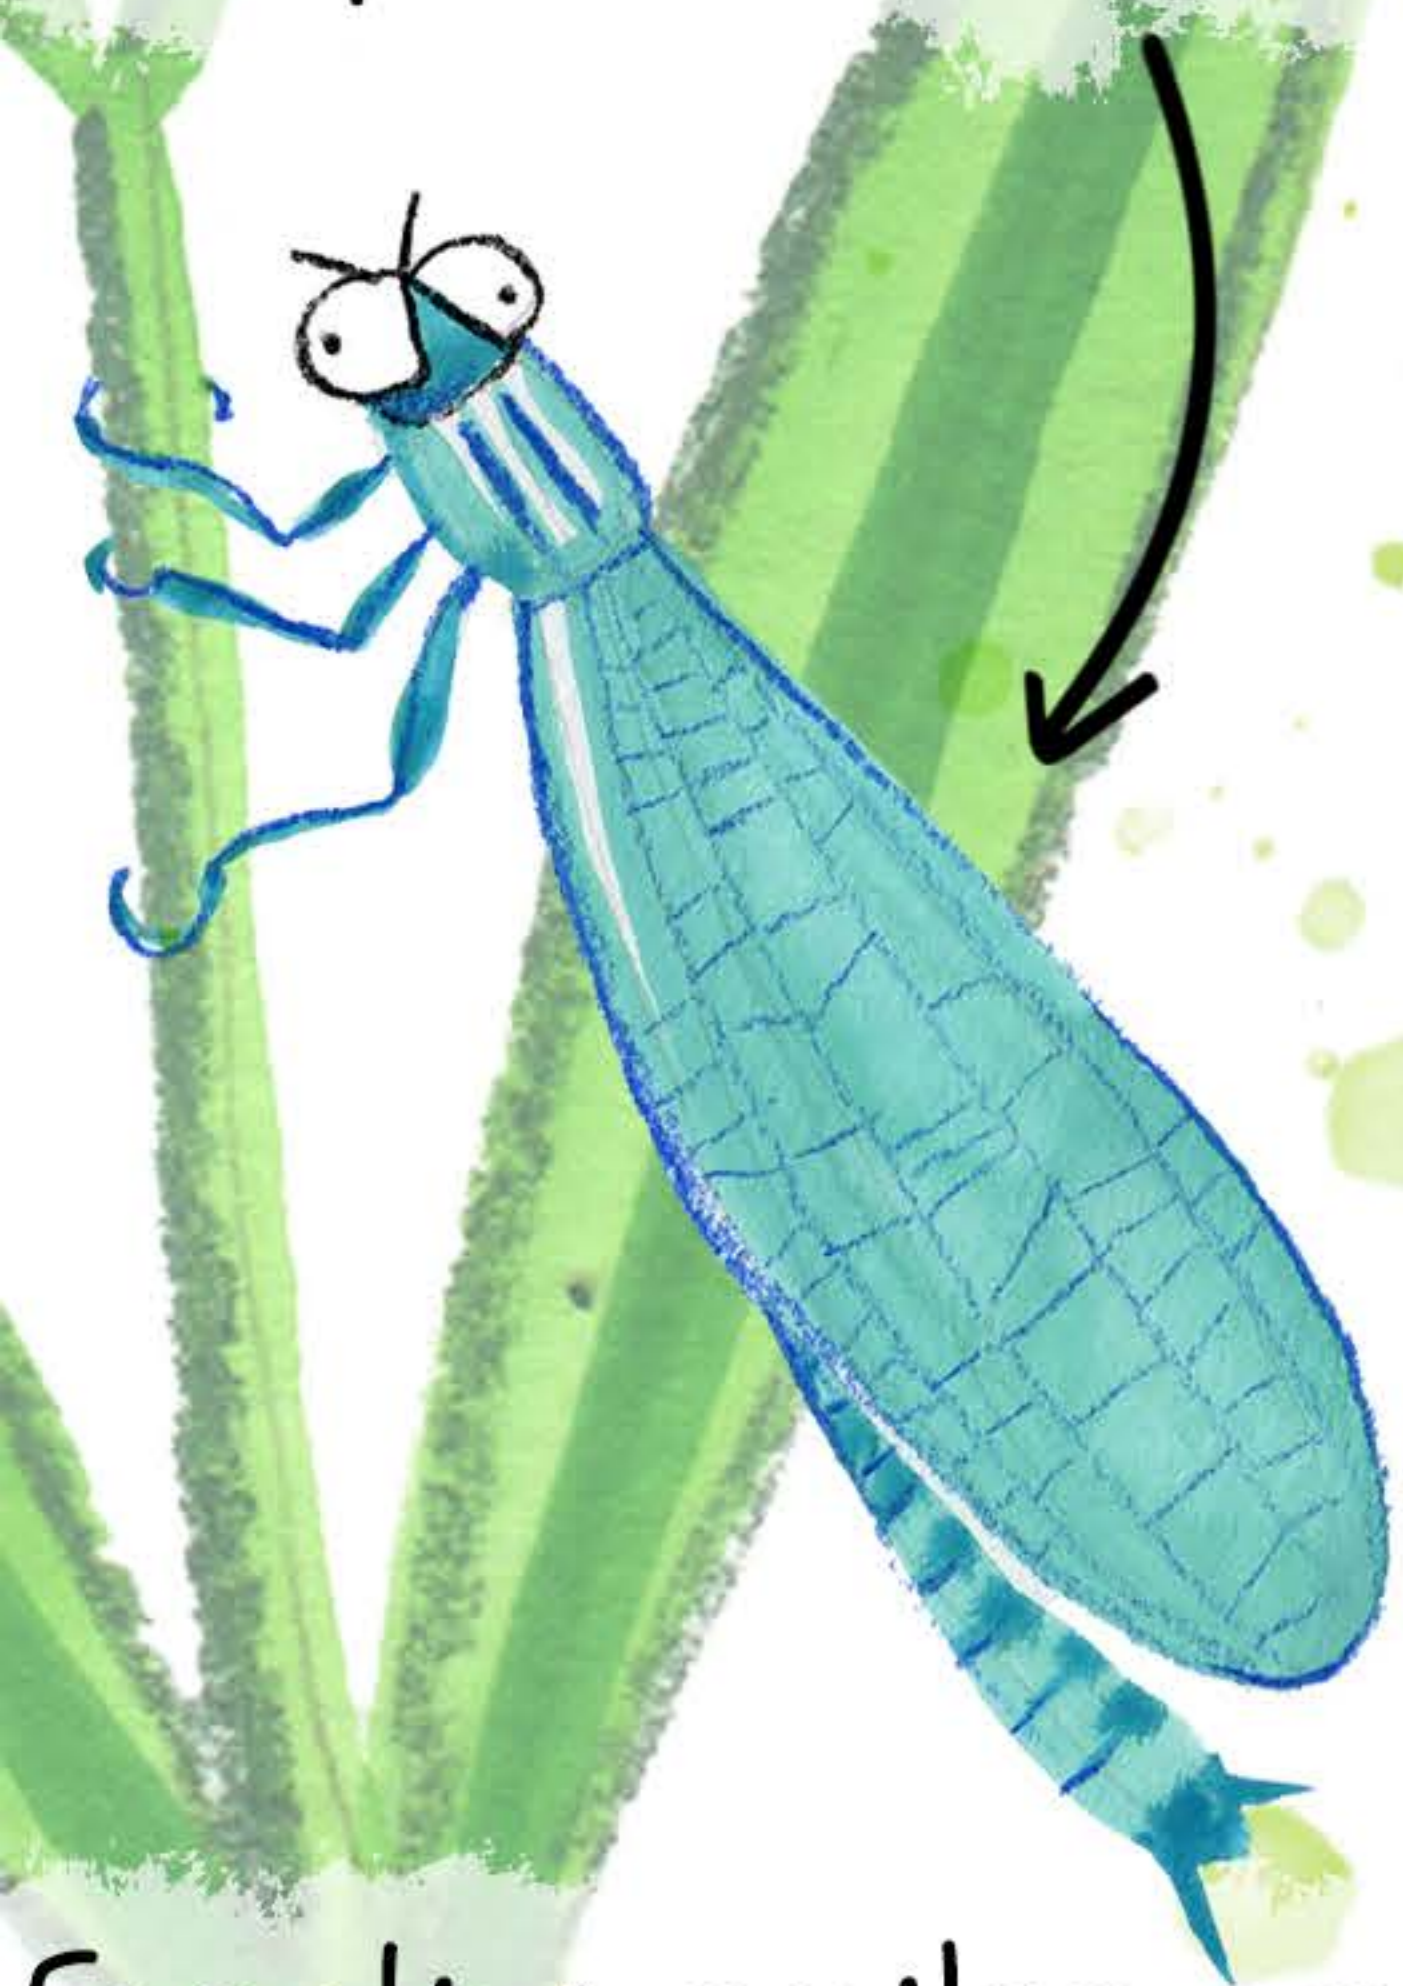

Can you match the spots?

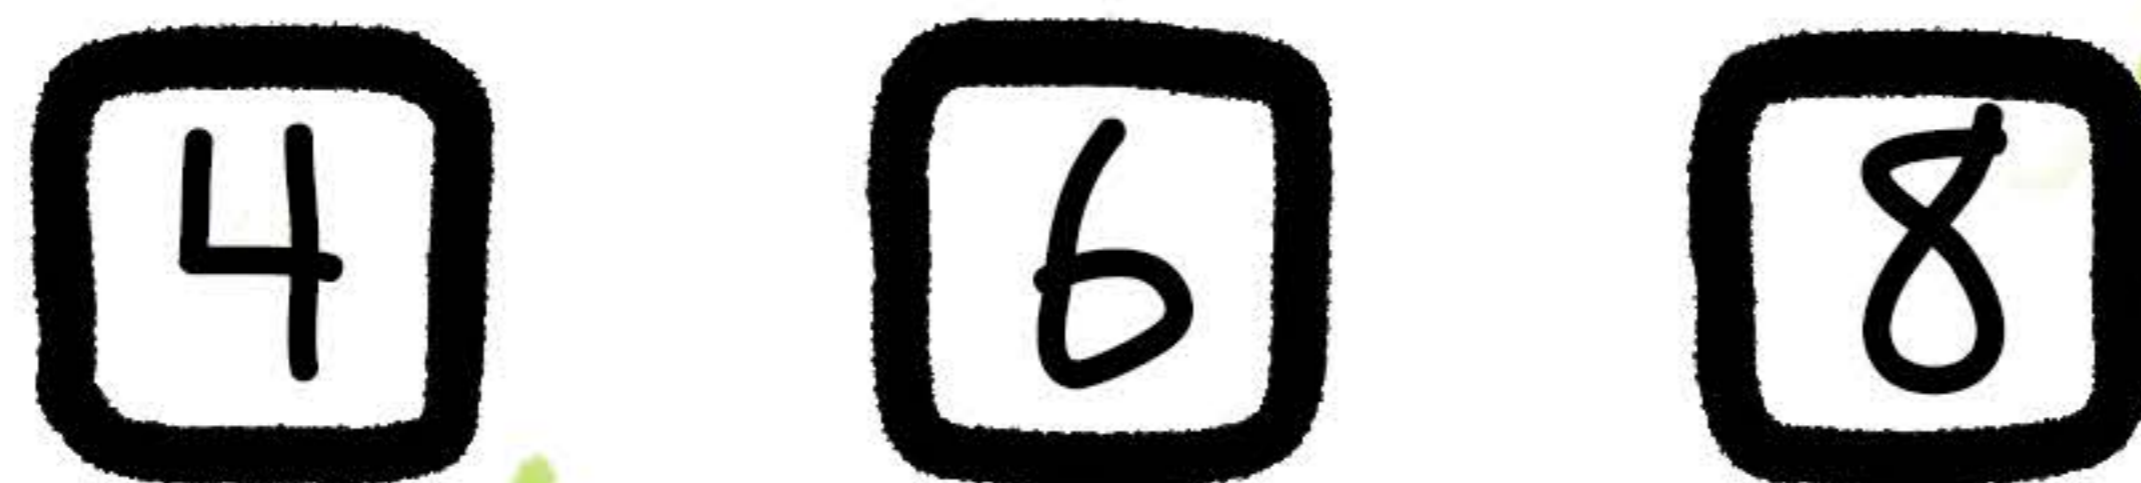

Can you double the spots?

Damselflies are pretty colours to help attract a mate.

How many legs do insects have?

Can you add up the spots on each Ladybird?

Beetles are insects and like all insects they have 6 legs.

How many spots now?

Ladybirds are bright colours to warn other animals not to eat them or they will be ill!

Featherbed Tales Activity sheet

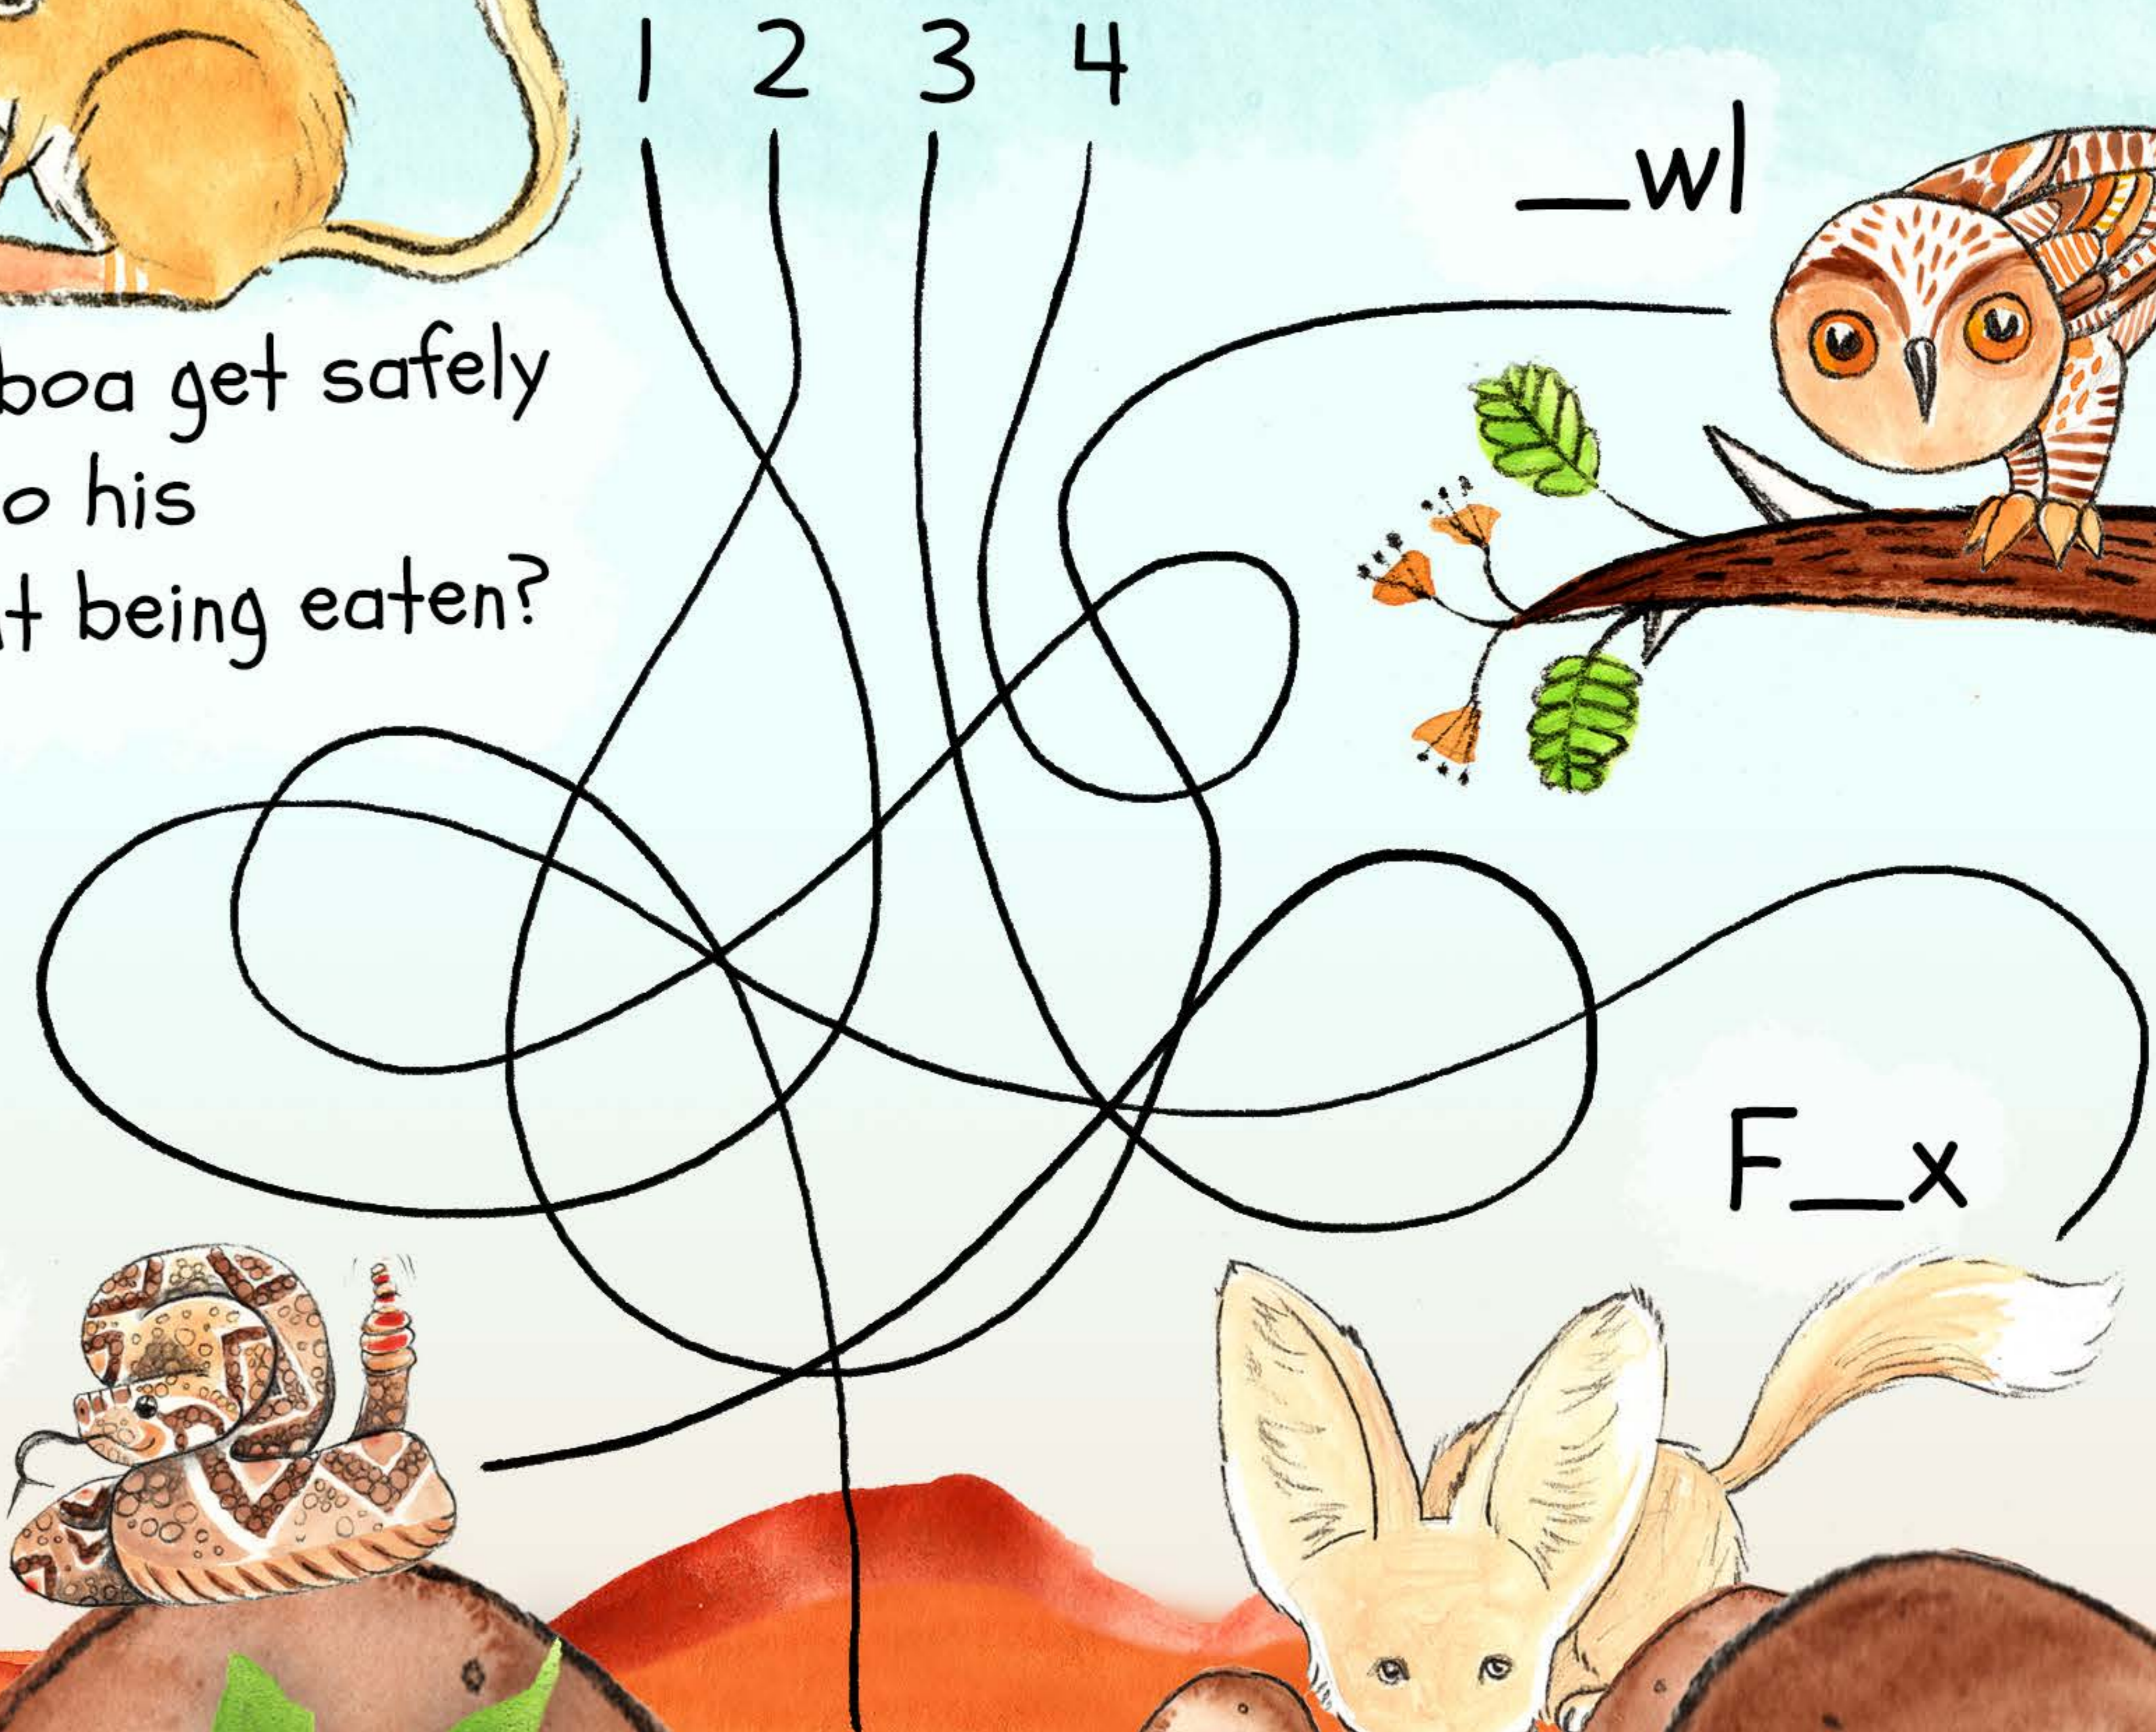

Long-eared jerboas

Long-eared jerboas live in the deserts in China and Mongolia. They are rodents like mice and rats and come out mainly at night. They eat seeds, insects and other bugs.

Yummy!

Can you help jerboa get safely home to his burrow without being eaten?

w

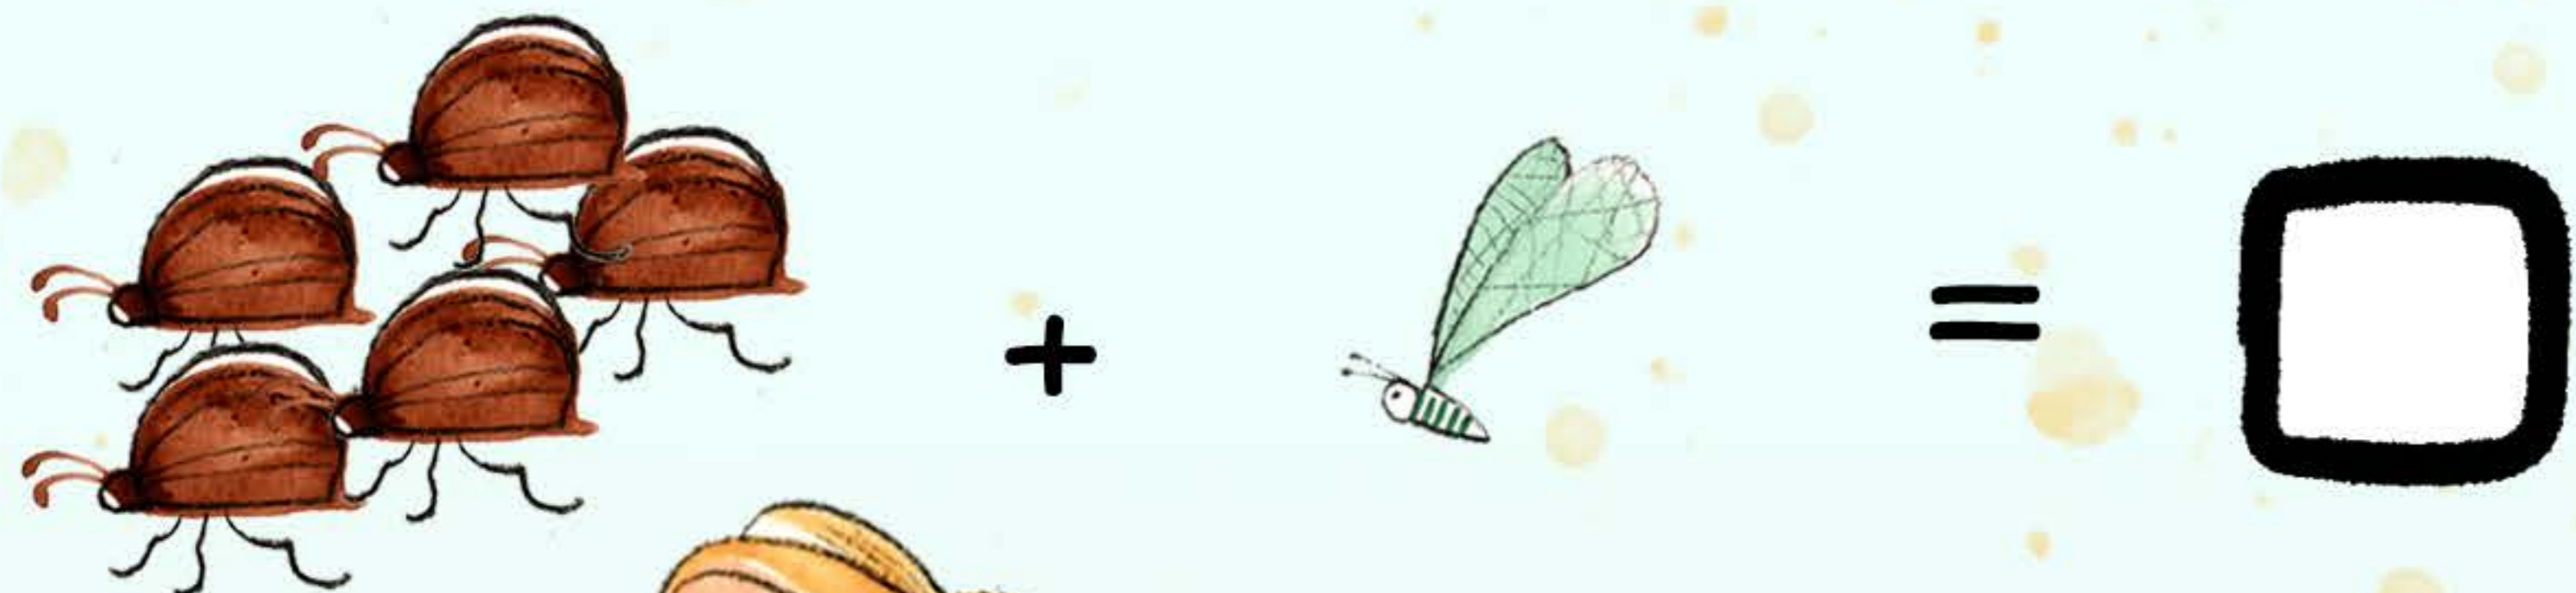

F_x

Sn_ke

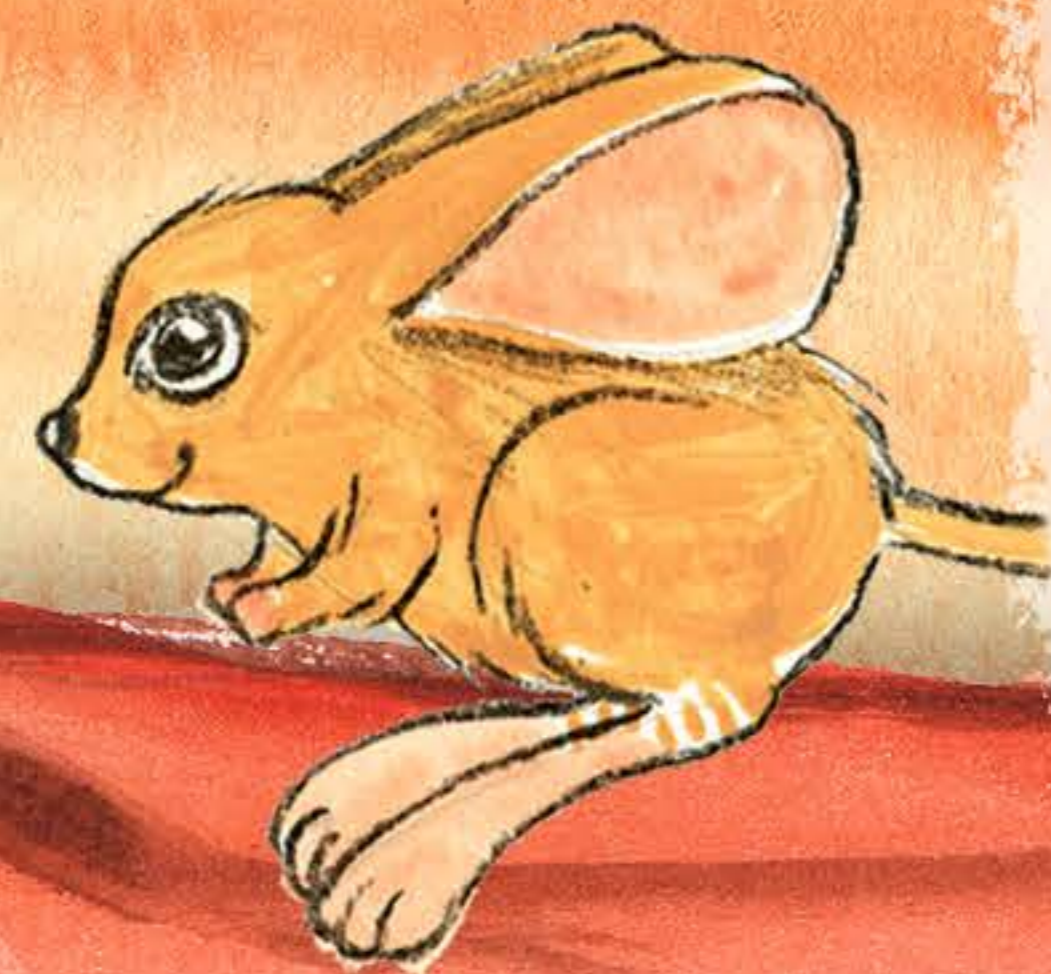

Home!

How many bugs does Jerboa have for his tea?

Can you jump like a jerboa?

Jerboa has lost his long tail. Can you draw it on again?

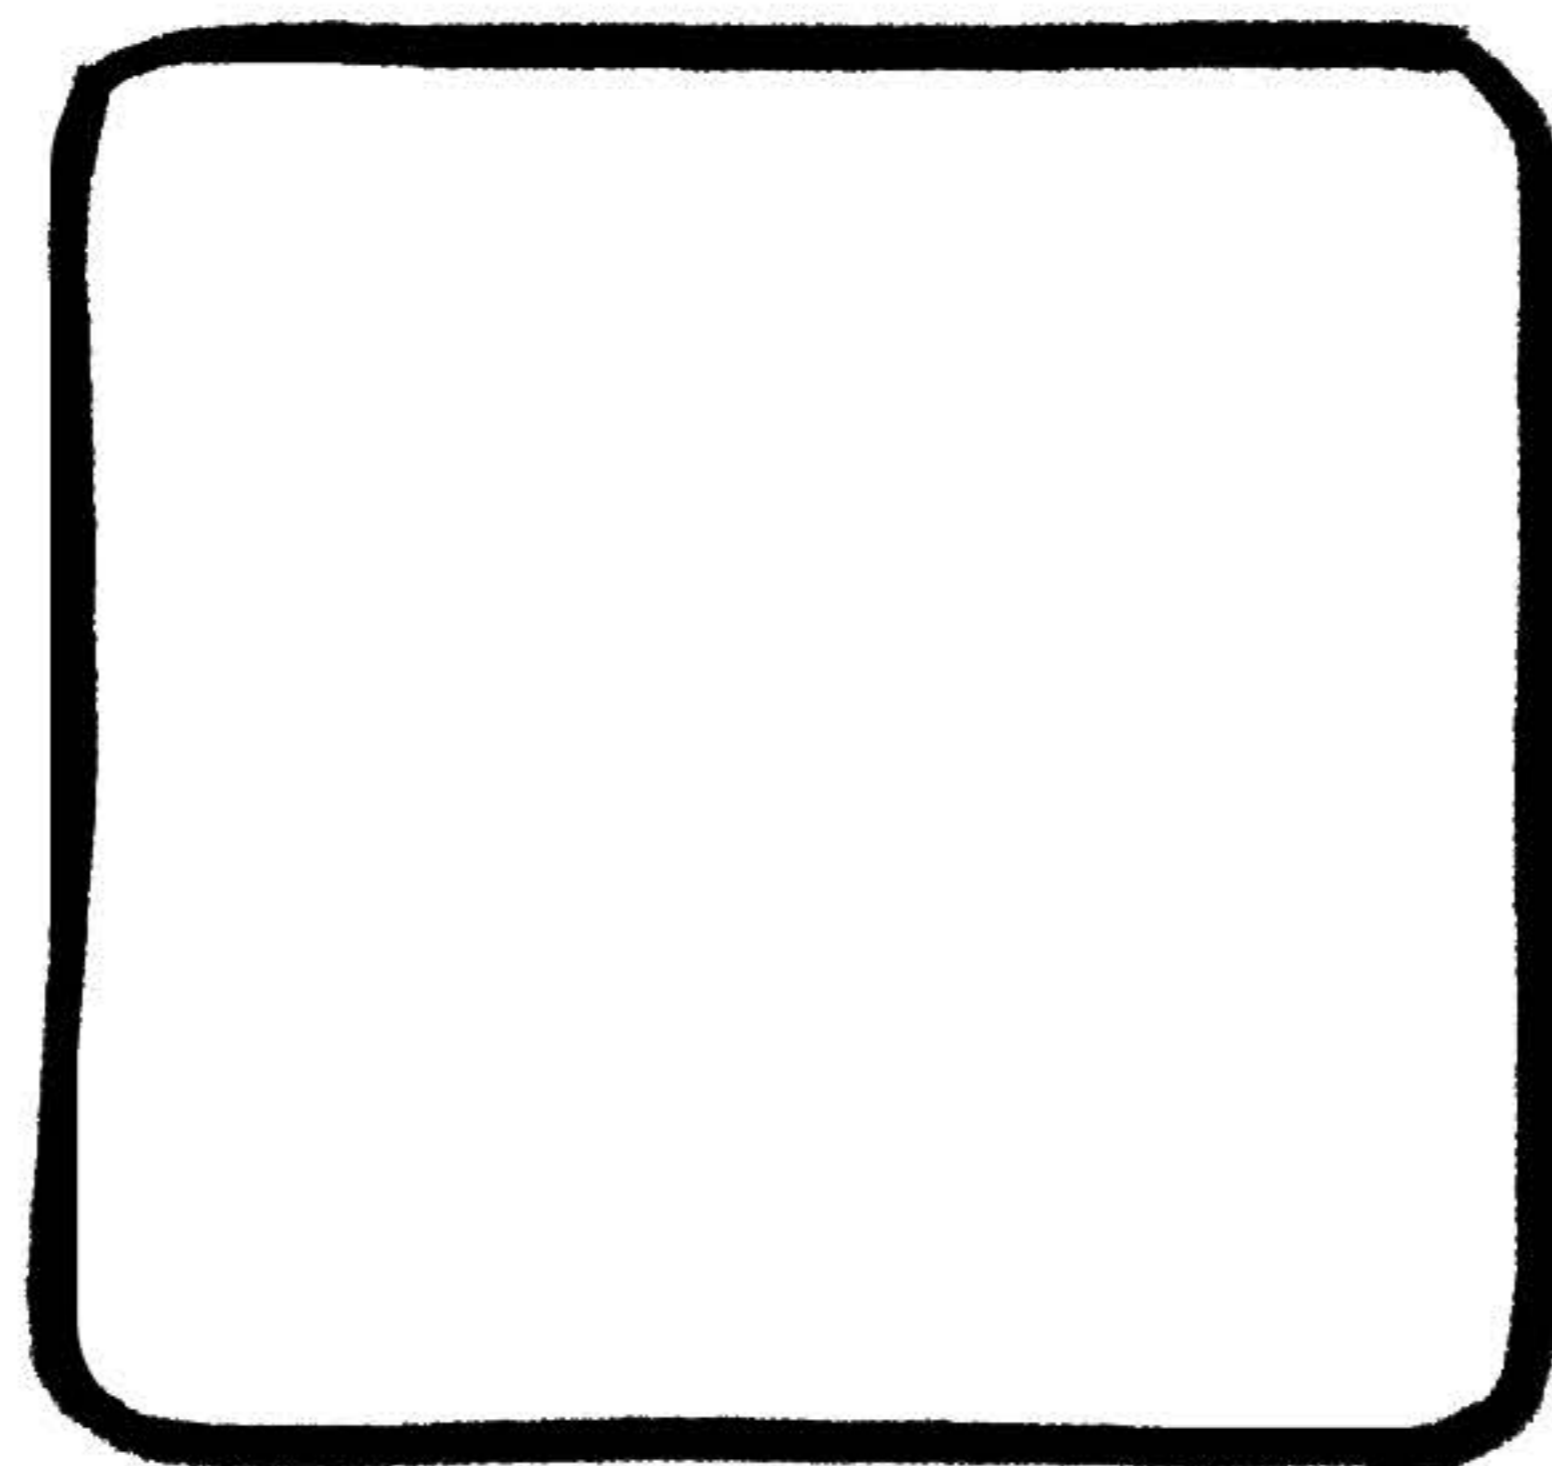

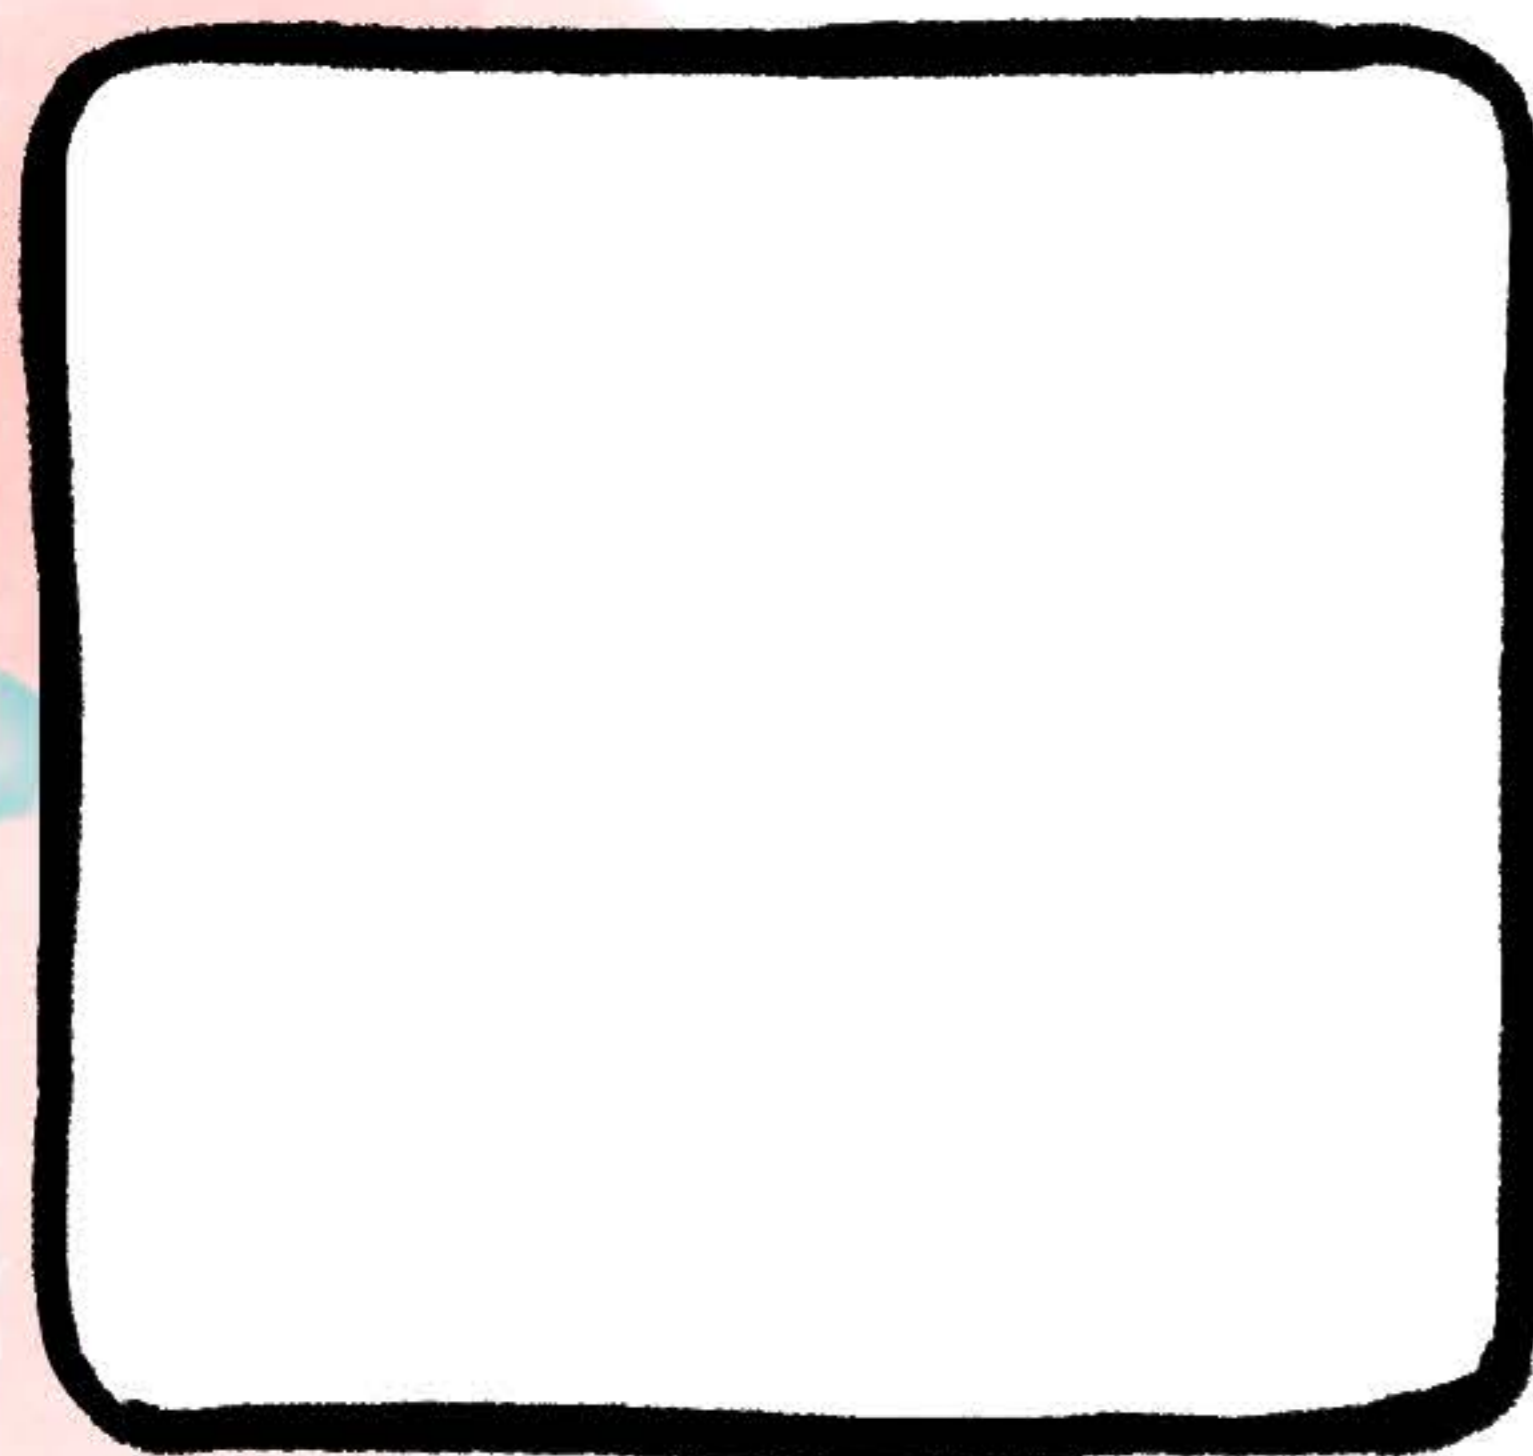

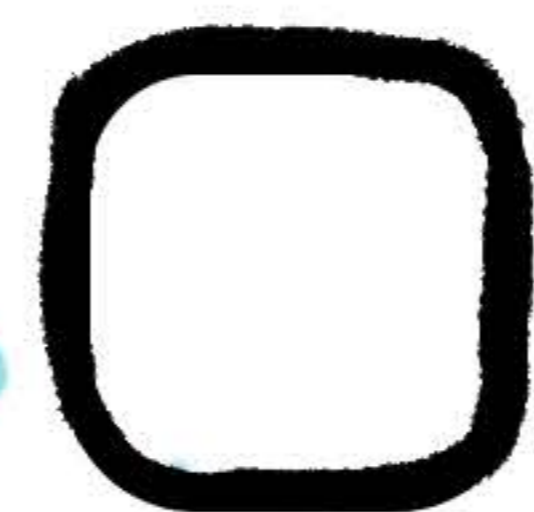

Featherbed Tales Activity sheet

Ellie's Numbers

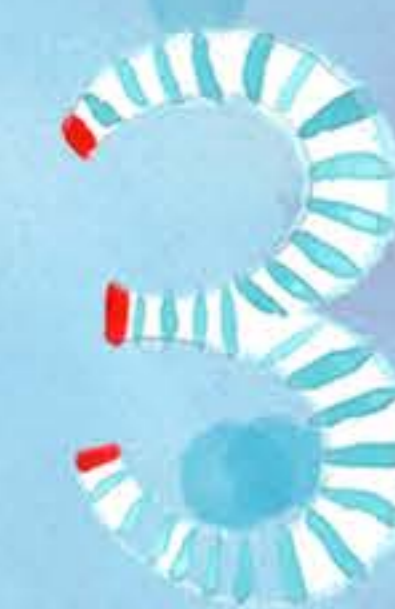

Can you draw 2 more?

How many cars do you have now?

Here are 3 cars.

Match the number and connect them...

Featherbed Tales Activity sheet

Who can you be?
